David Lewis Collection

Canopy Rangehood

To ensure maximum performance from your Kleenmaid rangehood, external venting is recommended. If you have any questions or require further details please call Kleenmaid Customer Care on FREECALL 1300 652 100.

Minimum distance above cooktop: Electric cooktop – 650mm
Gas cooktop – 650mm
(Check Local Regulations)

Size of venting pipe: 150mm

Maximum length of ducting: 3 metres

Ducting: EzyVent venting supplies recommended.
For maximum performance keep length of ducting short and the number of elbows used to a minimum.

Recirculating: Is an option if it is not possible to exhaust your rangehood outside. When using this option it is necessary to fit a CARBON FILTER. This will eliminate odours in the kitchen.

Model	Maximum Airflow Capacity (m ³ /h)	Elec. Approval No.	Width (mm)	Dimensions Height (mm)	Depth (mm)	Electrical Rating		
						Voltage	W	Amp
SAMURAI	700	Q96344	898	min. 810 max. 1190	450	240	215	.9
