Kleenmaid barrel vacuum cleaner

Compact, light and powerful

Our range of vacuum cleaners are manufactured around the promises of performance, quality construction and ease of use… important factors when considering a vacuum as they separate good from outstanding.

Clever design has combined a superior filtration system with a built-in furnishings protector – imagine no more marks and dings. Meanwhile 6 levels of filtration remove 99.96% of the finest dust, providing a cleaner living environment for the whole family especially allergy sufferers.

Our VC350 vacuum comes standard with a 150 watt powerhead making light work of a daily chore.

Jam-packed with features, the Kleenmaid VC350 is simply the best you can own!
