

# Discover the Fully Integrated Refrigeration Collection

## The refrigeration collection

There are three models in the Kleenmaid premium, fully integrated refrigeration collection. The CZ21911 upright freezer, the CR30911 upright refrigerator and the CRZ27011, top mount refrigerator with bottom mount freezer.

### Seamless Integration and Craftsmanship

Elevate your kitchen with the Kleenmaid Integrated 212-Litre Upright Freezer, CZ21911. The exclusive **KwikFit** system ensures a seamless, five-minute installation, with screwdriver only. Built with a full metal cabinet, commercial-grade hinges, and a reversible door, it adapts effortlessly to your layout while operating at a whisper-quiet 35dbA.

### Advanced Cooling with Unmatched Versatility

This no frost freezer features a unique convertible design, allowing it to operate as an “all-fridge” when needed. The **ULTRAFreeze** function rapidly locks in freshness, while the efficient BLDC fan motor delivers a 4-Star MEPS rating. The use of eco-friendly R600a refrigerant provides lower global warming potential.

### Unrivalled Efficiency and Freshness

Built with renowned Kleenmaid durability, the CR30911 Integrated Upright Fridge offers hushed 35dbA no frost operation. The **ULTRACool** function rapidly chills new groceries, while an exceptional 5.5-Star MEPS rating and eco-conscious R600a refrigerant ensure superior preservation with a minimal environmental footprint.

### Expansive, Tailored Organization

Inside the massive 304-litre capacity, bright LED lighting and touch controls manage a highly adaptable space. Organize with ease using adjustable toughened glass shelves, a bottle rack, and dual crispers calibrated for different humidity needs. Install side-by-side with the CZ21911 freezer for a flawless, cohesive finish.

### The Pinnacle of Modern Kitchen Design

Transform your kitchen into a culinary masterpiece with Kleenmaid’s integrated refrigeration suite. Designed to meet the demands of passionate home chefs and busy households alike, these premium appliances offer the perfect balance of sophisticated styling, intelligent food preservation, and enduring reliability.

### The Ultimate All-in-One Cooling Solution

Discover seamless design with the Kleanmaid Fully Integrated Top Mount Refrigerator and Bottom Mount Freezer (Model CRZ27011). This 267-litre unit (193L fridge, 74L freezer) blends flawlessly into your cabinetry using the five-minute **KwikFit** installation system. Encased in a durable, full-metal cabinet with reversible hinges, the CRZ27011 operates at a whisper-quiet 35dbA. Its no frost cooling system and efficient motor achieve an impressive 4.5-Star MEPS rating. The LED-illuminated interior allows you to maximize the space efficiency. Operated via touch controls, with adjustable glass shelves, a hidden beverage compartment, and a slide-out pizza tray, make the CRZ27011 your ideal cooling companion. Complete with **ULTRAFreeze** for rapid cooling and eco-friendly R600a refrigerant, the CRZ27011 delivers superior preservation and effortless organization.

Beyond its technical specifications, the CRZ27011 elevates your culinary space while maintaining sleek, uninterrupted cabinetry. It delivers professional-grade food care directly into your home, ensuring your ingredients stay fresher for longer without compromising your modern design.

# Fully Integrated Refrigeration Collection

## Fully Integrated Freezer

Model: CZ21911

- Integrated installation with all parts provided\*
- **KwikFit** 5-minute installation with screwdriver only
- Toughened glass shelving adjustable for tall and short items
- Concealed extra chilled beverage compartment
- Slide-out pizza and frozen dessert tray
- No frost cooling system, Internal LED lighting
- Mobile Box
- 212L Net 219L Gross
- Ultra-quiet operation 35dbA
- High quality commercial grade hinges
- **ULTRAFreeze** applies extra cooling for quicker freezing results
- Ultra-efficient insulation MEPS rating 4 Stars
- Cooled air circulation system with BLDC fan motor
- Electronic controls
- Full metal cabinet for long life and electrical safety
- Left or right hand door opening interchangeable with no additional parts required. Standard left hinge
- R600a refrigerant for lower global warming potential (GWP)
- Twist ice cube maker with storage bin
- **Can also be operated as an all fridge** MEPS rating 5.5 Stars
- Also available matching upright fridge CR30911

## Fully Integrated Refrigerator

Model: CR30911

- Integrated installation with all parts provided\*
- **KwikFit** 5-minute installation with screwdriver only
- Toughened glass shelving adjustable for tall and short items
- No frost cooling system, Internal LED lighting
- Bottle rack
- 304L Net 309L Gross
- Ultra-quiet operation 35dbA
- High quality commercial grade hinges
- **ULTRACool** applies extra cooling for quicker new load results
- Ultra-efficient insulation MEPS rating 5.5 Stars
- Cooled air circulation system with BLDC fan motor
- Electronic controls
- Full metal cabinet for long life and electrical safety
- Left or right hand door opening interchangeable with no additional parts required. Standard right hinge
- R600a refrigerant for lower global warming potential (GWP)
- Humidity controlled crisper + low-humidity crisper
- Also available matching upright freezer CZ21911

\*Door panel not included and is for illustration purposes only.

## Fully Integrated Top Mount Refrigerator with Bottom Mount Freezer

Model: CRZ27011

- Integrated installation with all parts provided\*
- **KwikFit** 5-minute installation with screwdriver only
- Toughened glass shelving adjustable for tall and short items
- Concealed extra chilled beverage compartment, split shelf
- Slide-out pizza and frozen dessert tray
- No frost cooling system, Internal LED lighting
- Bottle rack
- 267L, refrigerator 193L, freezer 74L
- Ultra-quiet operation 35dbA
- High quality commercial grade hinges
- **ULTRAFreeze** applies extra cooling for quicker freezing results
- Ultra-efficient insulation MEPS rating 4.5 Stars
- Cooled air circulation system with BLDC fan motor
- Electronic controls
- Full metal cabinet for long life and electrical safety
- Left or right side door hinges interchangeable with no additional parts required. Default right hinge
- R600a refrigerant for lower global warming potential (GWP)

### Your 5 Year Warranty

Kleenmaid's UltraTap 5 is covered by our 5 year, full parts and labour warranty, and is supported by our highly skilled national service network.

# Cabinetry and installation requirements for correct ventilation of the Kleenmaid Integrated Refrigeration Collection

Due to the confinement of the cavity, all integrated refrigerators, including the Kleenmaid Collection, require adequate ventilation as per the installation instructions found in the user care manual. If these instructions are not followed problems will occur such as;

- The refrigerator/freezer will use more energy and will not be able to maintain its set temperature
- Damage will occur to the cooling system which will shorten the life of the refrigerator/freezer.
- Excessive condensation can be produced which can cause damage to surrounding cabinetry.

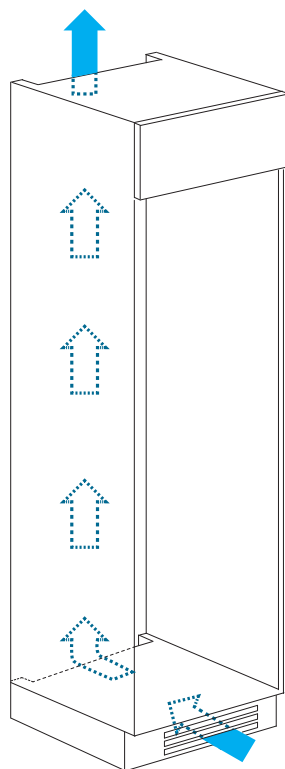

A minimum of 200cm<sup>2</sup> cross sectional area for the ventilation inlet is required. The ventilation inlet of 200cm<sup>2</sup> cannot be covered by a decorative grill of a smaller dimension that restricts or reduces the air path. The air path must be as per the diagram (right) allowing for a minimum of 200cm<sup>2</sup> uninterrupted air flow path from the bottom to the top of the cabinet and back to ambient air.

***Prior to manufacturing cabinetry and installation please ensure that the user care manual, delivered with the appliance is read carefully and all requirements are adhered to.***

If a Kleenmaid integrated refrigerator or freezer fail to perform to specification due to incorrect installation or inadequate ventilation it may not be covered by warranty.

**User care manuals can be downloaded at [www.kleenmaid.com.au](http://www.kleenmaid.com.au).**

Airflow out back to ambient air with no reduction in required 200cm<sup>2</sup> air flow.

Airflow in, unrestricted to airflow out. Three slot cuts of 400mm x 20mm equally spaced or another grill to provide minimum of 200cm<sup>2</sup> of unrestricted air flow.
